

YES Joins Forces with EV Group – April 23, 2021

Everything's Coming Up Chiptets at the 2021 Global Business Council Spring Meeting

Leave it to Bill Chen, ASE, to set an optimistic tone for the 2021 Global Business Council Spring Meeting. It was exactly what the packaging community needed to hear.

Member of the Week

EV Group (EVG) is a leading supplier of high-volume production equipment and process solutions for the manufacture of semiconductors, MEMS, compound semiconductors, power devices and nanotechnology devices.

A recognized market and technology leader in wafer-level bonding and lithography for advanced packaging and nanotechnology, EVG's key products include wafer bonding, thin-wafer processing and lithography/nanoimprint lithography (NIL) equipment, photoresist coaters, as well as cleaning and inspection/metrology systems. Recent news includes EVG's partnership with fellow 3D InCites community member Yield Engineering System. EVG's NILPhotonics® Competence Center has added the YES EcoCoat™ monolayer coating system to its process flow, enabling development of efficient and differentiating manufacturing solutions for new cutting-edge markets and applications. The collaboration will provide complete process flow demos for prospective semiconductor, life science and optical coatings (AR/VR) customers.
