

EV Group: The Grand Tour – December 10, 2021

A Conversation about Semiconductor Market Growth and What it Means

At SEMICON West Hybrid 2021, everyone was talking about the impact of the chip shortage, global fab expansion, the talent shortage, and the over-arching topic of the importance of sustainable semiconductor manufacturing. We spoke with Ajit Manocha, CEO of SEMI, to get his perspective on all these issues, and the role SEMI plays in providing a collaborative environment to find solutions.

Member of the Week

Welcome to one of our news Community Members, Gel-Pak. Founded in 1980, Gel-Pak has developed a line of proprietary elastomer-based device carriers and handling materials that offer solutions for applications where damage during handling must be avoided. The company's unique elastomer technology serves as the basis of its Gel-Box™, Gel-Tray®, Gel-Slide®, E-Film™ and patented Vacuum Release™ products. These products effectively immobilize devices during shipping and handling.

Gel-Pak has over 1,000 active customers worldwide, ranging from Fortune 500 companies to small startup manufacturers and universities. Key industries that rely on Gel-Pak's one-of-a-kind products include semiconductor, optoelectronic, microwave, telecommunication, medical, automotive and data storage.
