

EV group expands collaboration with ITRI on heterogeneous integration process development – September 2, 2022

September 02, 2022

Industry Insights

First and second generation Valeo Scala LiDARs: the technology gap revealed

Backed by its strong expertise in reverse costing of innovative automotive systems, Yole SystemPlus, part of Yole Group unveiled the detailed profiles of Valeo's LiDARs in a complete set of Teardown Tracks, available on a dedicated platform. Through its investigations, Yole SystemPlus highlights the most striking points raised from the comparison between Scala 1 and Scala 2.
