

SEMI ISS Europe 2024 to Spotlight European Chips Act With Focus on Innovation and Supply Chain Resilience – January 19, 2024

SEMI ISS Europe 2024 to Spotlight European Chips Act With Focus on Innovation and Supply Chain Resilience

VIENNA, Austria – January 16, 2024 – Leading analysts, economists, policymakers and technologists will gather at the SEMI [Industry Strategy Symposium Europe \(ISS Europe\) 2024](#), March 6-8 in Vienna, Austria, for insights into the latest trends and innovations shaping the global semiconductor industry. The annual symposium provides industry intelligence that enables attendees to align their company business plans and forecasts with current market conditions. [Registration](#) is open.

Themed *Key Strategies for Europe's Success: An Evolving Global Landscape*, ISS Europe 2024 will examine economic, technology, market, business, and societal developments and trends influencing the global electronics manufacturing industry.

“These are exciting times for industry leaders to strategize and capitalize on growth opportunities in Europe,” said Laith Altimime, President of SEMI Europe. “Europe plays a key role in propelling global semiconductor industry growth as the digital transformation and the implementation of the EU Chips Act lay the groundwork for the industry’s path to \$1 trillion. Thought leaders at ISS Europe will offer perspectives on fostering innovation, strengthening R&D, ensuring supply chain resilience, and advancing European sovereignty.”

ISS Europe 2024 Highlights

Session 1: Market Trends and Key Strategies

Leading market analysts will address global semiconductor market trends and strategies, highlighting Europe’s challenges and opportunities in an evolving world.

Session 2: End-to-End Supply Chain Resilience

Experts will explore deglobalization trends, ways to secure the semiconductor supply chain and opportunities in both the front and back ends of semiconductor production such as process innovation and equipment advancements.

Session 3: Cultivating the Workforce and Leaders of Tomorrow

Thought leaders will provide insights into the actionable strategies companies can implement to cultivate the workforce of tomorrow. The discussions will highlight pathways for collaboration, innovation, and strategic partnerships that can strengthen the chip industry.

Session 4: Inspire Innovation, Empower Sustainability

Experts will examine how integrating advanced technologies – including automation and data analytics – can help address the industry’s sustainability goals, climate change, and growing digitalization.

Session 5: Sustainable Technology Solutions for Future Applications

Speakers will shed light on coming innovations across diverse applications – such as medical devices, data centers, artificial intelligence, and automotive – and their profound implications for the design and manufacture of semiconductors.

Business Networking

ISS Europe 2024 will feature several networking activities including a welcome reception at the [Hilton Vienna Park](#) and an exclusive gala dinner at [Hofburg Vienna](#), where attendees will meet with peers to explore new business partnerships and opportunities.

Sponsors

- **Platinum:** [Comet](#), [Edwards](#) and [Macquarie](#)
- **Gold:** [ASM](#), [EBARA](#) and [Synopsys](#)
- **Event:** [EV Group \(EVG\)](#), [Huawei](#), [imec](#) and [JSR Micro](#)

About SEMI

SEMI® is the global industry association connecting over 3,000 member companies and 1.5 million professionals worldwide across the semiconductor and electronics design and manufacturing supply chain. We accelerate member collaboration on solutions to top industry challenges through Advocacy, Workforce Development, Sustainability, Supply Chain Management and other programs. Our SEMICON® expositions and events, technology communities, standards and market intelligence help advance our members’ business growth and innovations in design, devices, equipment, materials, services and software, enabling smarter, faster, more secure electronics. Visit www.semi.org, contact a regional office, and connect with SEMI on [LinkedIn](#) and [X](#) to learn more.
